2055 CENTRALA TERMICA (3/18/27)
2008 PISTA SOSIRI
2009 PISTA PLECARI
4703 S.A.I.

LAC 3G :

Daca poti, verifica la site-ul 2009 PLECARI daca una din antene (cea din dreapta, spre terminalul central) este Triband ! Pilonul se vede în mod normal foarte bine atunci când terci de check-in / control bagaje si te îndrepti catre pasapoarte, eventual probabil si dupa aceea - pe lungul culoar care duce la Gates. Antena care emite catre zona check-in/bagaje ar trebui sa fie DualBand GSM/UMTS, iar cea care emite catre terminalul central (cel de imbarcare, culoar lung...) ar trebui sa fie Triband GSM/DCS/UMTS !? Dar problema este ca daca te iei dupa logica CID-urilor, S1 (B.61) ar trebui sa emita catre terminal, si S2 (B.57 / 643) ar trebui sa emita catre check-in... deci e invers ! Asa ca vezi WTF !!

Da, antena din dreapta e mai scurta si e triband. Ambele antene au TMA. Cea din stanga e dual cu 2 busoane. LINK Nec (aceasi directie ORO)d ORO link MPR, antene powerwave

La gate 15 (terminal nou) stai pe 20092 / 20096
