**[KOS] Info diverse**

---

In camera Idoar VDF are 3G (full, ca ai BTS-ul sub nas ; il vezi în poza) ; prin restul complexului vad ca si Cosmote mai are 3G cu semnal variabil.

Pe Blackberry - Wind nu am acces la date din cate se pare, vad doar GSM ! Acces pe Wind din a doua incercare.

Cosmote are deci BTS la noi (se vede mai bine de la Hilton Double Tree, cred ca e bisectorizat, antene micute...)

La aeroport VDF pare sa aiba doua RBS-uri 2102 verzi (la hotel aveai unul alb), nu prea vad de 3G. Pe pilonul de langa (astea sunt pe pista) cred ca e Wind, cu un NodeB Nokia (cred, e un cabinet) si PARCA (din amintiri) un Ericsson 2106... Au MW catre muntii de la Kefalos (cealalta pointa a insulei, la VDF e 1+1, la wind nu am vazut). Doar Wind pare sa aiba 3W aici (confirmat in FTD)

## [KOS] Cosmote

PORTO BELLO BEACH Hotel

Semnal clar ma slabut. Per total : VDF de foarte departe primul, apoi Cosmote, ultimul e Wind - mult in spate. Principale par sa fie BCCH 856 & e4 (same BTS de la TA39 !)

Baietii au totis BTS 1865x Triband sus pe o colina catre Vest, se vede de pe plaja, e mic si izinit... si nu reuseste sa acopere corect cu 3G si indoor (in camere, unde am doar EDGE sau GPRS in functie de celula)
