
Greece | RHODES

DAY 1

* Butterflies sus la manastire

- pe drum catre butterflies prin padure ai din greece doar VDF (1416x DCS-only, lac 92, singura cell decodata, ta2 sus la manastire !) si retelele din Turcia (turkcell si vdf, avea nu). Sus la manastire ai 3G doar pe turkcell si vdf GR si cosmote, si pe 2G ai toate retelele din gr si TR.

-> se pare ca bts-ul VDF este sus pe colina, un mic stalp bisectorizat (minuscul) doar 1800, bcch 710 (14167, trx 710/714 /732/746, ram111, 0/1/0, 180/5, rar4) si 712 (14166, trx 712/744) LAC 92 all, rai 1

-> acoperire clar mai buna pe vdf GR dar tât timpul la limita (RX 100), celalate retele complet absente, mai ai din cand in cand turkcell si telsim. La sfarsit ai o cell GSM (bcch 89 cid 4362 parca, cu 2TRX, asta acopera prima parte adrumului pe acolo prin padure, dupa ce ai plecat de la parking)

* Drum pana la Monolithos (coasta sud Vest)

Nu am notat nimic, dar am vazut in dezordine ;

- VDF lac 7 la un suspect TA 63 (extended range ?), si un LAC 85 parca. Acopera bine baietii, ei si cu Wind sunt relativ ok peste tât, foarte majoritar pe 900Mhz. LAC 92 all. Nu am intrat never pe Wind, dar se mentin bine baietii.

- COSMOTE este LAC 314, mai ai trase si de LAC 315 si 322 (dar nu sunt selectionabile, probabil de pe alte insule). Acoperire slaaaaba, des vezi doar wind si vdf si uneori si turcii... Merg mult nult pe 1800, egsm relativ putin...

- pe la castelul ala de la Monolithos prinzi si retelele de Egepe (egypt 03 si Vodafone)

DAY 2

Wind spre Dimilia pe BTS x0019 si x0055 single 900 cu hopping

Appolakia 3G cosmote

- Prasonisi 3G are doar VDF, edge pe cst

DAY 3

Lindos toti grecii au 3G. Pe VDF ai si DCS, cate 2 TRX parca, iar T68-ul avea problème cu actualizarea CA_Listului...

In rest, de pe orange F nu am acces pe Vodafone GR, iar pe Wind nu am date (doar pe 2G - afisaj GSM, pe 3G am BIS funtional, foarte straniu !!). Turkcell e full cu data, intra des la hotel in locul cosmoteului...
